COMPRESSION BALL VALVES

Plumbeeze Compression Ball Valves are recommended for use in hydraulic, gas and for hot and cold-water systems applications with low to medium pressure. Can be used to make connections between Copper, Brass, Aluminum, Plastic, CPVC & Pex tubing. Not recommended for use with steel tubing, designed for use with tube manufactured to CTS-OD tubing.

Part No.	Size	Port Size	UPC 777808+	Quantity		List Price - A

DIELECTRIC UNIONS

Plumbeeze Dielectric Unions are used in commercial and residential applications to prevent accelerated corrosion and deterioration in the piping system due to galvanic and stray current. They consist of a union nut, two tailpieces, and a gasket that separates the tailpieces to prevent an electric current from occurring. Dielectric Unions are ideal in applications such as hot water storage tanks, water and air conditioners, processing tanks, steam, gas, and water piping. No Lead

BRASS NIPPLES

Plumbeeze Red Brass Nipples and Ready Cut Pipe are produced from red brass pipe which has higher copper content than yellow brass and offers much better corrosion resistance from water and resists attack from salt water, & minerals, contained in water. Ideal for use in high corrosion installations such as barns, underground installations, wells, basements or any other damp environments. Much longer lifespan than galvanized fittings. No Lead

NYLON FITTINGS

Plumbeeze Nylon Fittings are great for water well, underground, barns, livestock and watering systems. These are not ideal for applications exposed to sunlight as ultraviolet rays will cause fittings to become brittle. No Lead,

FLEXIBLE COUPLINGS

Plumbeeze Flexible Couplings are for joining dissimilar pipe materials and/or sizes in utility, municipal and plumbing applications, including sewer, drain, waste and vent (DWV) piping applications. Couplings fit over the ends of plain-end or spigot pipe to form a positive seal against infiltration and exfiltration in non-pressure environments. Excellent dimensional flexibility with a tolerance range of approximately ± 5% nominal diameter which allows the coupling to flex with normal earth movement and ensures leak proof seals.

- Couplings are marked with both size and pipe materials for easy identification and installation
 - Clamps tighten easily with slotted screwdriver
- No Lead

FLEXIBLE END CAPS, ELBOWS AND TEES

Plumbeeze Flexible End Caps, Elbows and Tees are easy to install and fit pipe in drain, waste and vent plumbing applications.

- Clamps tighten easily with slotted screwdriver

These terminate pipe ends and cleanouts. The convex face will withstand greater pressure for testing and minimize ballooning.

PUSH FIT FITTINGS

Plumbeeze Brass Push Fit Fittings can be used for potable water, hydronic heating systems, new residential, and commercial construction applications. They are approved for use for both underground and behind walls with or without access panels. Excellent for wet, hazardous and dry repairs of existing plumbing where a system is hard to drain making soldering difficult. They connect copper, CPVC and PEX pipe in any combinations. Fittings can be rotated after assembly for easier installation in tight spaces and do not require tools, soldering flux, clamps unions or glue.

• For tube sizes 3/8" (.5" O.D.), 1/2" (.625" O.D.), 3/4" (.875" O.D.), 1" (1.125" O.D.) No Lead,
Maximum Pressure: 200 PSI @ 200°F (93°C)

PLASTIC QUICK CONNECT FITTINGS

Plumbeeze Plastic Quick Connect Fittings are designed for use in POU installations, water dispensing, filtering systems, food/beverage service, agricultural/irrigation. These fittings provide a quick and convenient assembly solution saving time and expense. They do not require crimp tools, adhesives or clamps and can be removed and reused without damaging the pipe. Tube supports are sold separately and are recommended for use with soft tubing and hot liquids. They have excellent resistance to most organic compounds, industrial chemicals and gases. Plastic quick connect fittings can be used on PVC, Polyethylene, PEX, and Copper tubing.

STAINLESS STEEL PEX FITTINGS

Plumbeeze Stainless Steel PEX crimp fittings are premium quality and durable. They have a high corrosion resistance and are ideal for areas with high acidity and anywhere water quality is an issue. These fittings have a greater flow area for less restriction and better flow in PEX pipe installation. No Lead,

"ALL WEATHER" PIPE WRAP TAPE

Boshart's all weather pipe wrap tape can be used on all types of pipe and fittings including steel, galvanized, electrical conduit, cast & ductile iron. It has excellent insulating capacities and superior abrasion resistance. This tape reduces corrosion problems caused by salts, salt water, solid acids, minerals, alkalis, common chemicals, vapors and protects against fungus and bacteria. It remains pliable in a wide range of temperature and working environments, resists the effects of outdoor weathering and sunlight exposure.

FILTER HOUSING KITS

Plumbeeze Filter Housing Kits are great for agriculture, water well, point of use, greenhouse/ drip irrigation, whole house residential and recreational vehicle applications. They have a threaded inlet and outlet with a relief button on the inlet side. These housings fit industry standard filter cartridges (not included). The filter heads have mounting bosses molded in for installation with a mounting bracket. Each unit comes with the housing, o-rings, filter bowl wrench, and a mounting bracket with hardware.

• Head is polypropylene, blue bowl is polypropylene, clear bowl is styrene-acrylonitrile

ICEMAKER / IN-LINE TASTE & ODOUR FILTERS

Plumbeez IceMaker / In-line Taste and Odour Cartridges utilize coconut shell granular activated carbon and are designed to remove unpleasant tastes and odours as well as sediment to produce cleaner, clearer, better tasting water. They have a low pressure drop, high dirt holding capacity, durable physical strength, and steady flow to achieve reliable performance and long life usage. By packing the carbon the concerns of shifting carbon inside the filter are removed. These Granular Activated Carbon filters are easily installed on the water line to an automatic icemaker, reverse osmosis system or water dispensing system. No Lead, Temperature Range: 40°F to 110°F (4°C to 43°C), Maximum Pressure: 125 PSI, Filter Media: Carbon

CARBON BLOCK CARTRIDGES

Plumbeeze Carbon Block Cartridges are ideal for point-of-use (POU) and Reverse Osmosis applications. These cartridges can be used in a wide range of applications such as residential, food service, commercial, and industrial. The carbon block series cartridges are great for displacing traditional granular activated carbon and powdered activated carbon filters in application where high chlorine reduction is needed. They are manufactured with high purity activated carbon and provide an exceptional cost-to-performance value. These cartridges have high chlorine reduction, great dirt-holding capacity, and greatly reduced carbon fines. No Lead,

PLEATED POLYESTER CARTRIDGES

Plumbeeze Pleated Polyester Filters are suited for a variety of uses and can be used in residential, commercial, and industrial applications. The non-woven polyester filter media is pleated around a polypropylene core for added strength and stability.

The pleated surface area provides greater sediment and dirt holding capacity while maintaining flow rate and reducing initial pressure drop. These cartridges can be cleaned and reused in most applications and micron ratings.

The flow rates listed are based on their maximum efficiency. They can be used with flow rates above what is listed but will not filter as effectively. No Lead, Temperature Range: 40°F to 125°F (4°C to 52°C), Filter Media: Polyester

STRING WOUND POLYPROPYLENE CARTRIDGES

Plumbeeze String Wound Polypropylene Cartridges are for a wide range of filtering applications and are manufactured from FDA grade polypropylene. These cartridges are very suitable for potable water filtration. Ideal for removing very fine sediment right through to very coarse sediment, at ambient temperatures. The cartridges are made by diagonally winding a precise pattern of carefully selected fibers on a center core. The pattern is designed to create hundreds of identical, tapered, spiral passageways. During the winding, fibers are combed across the passage and locked in place by succeeding layers. Solid particles are removed by entrapment in this highly efficient filter media. Filtration takes place throughout the entire cartridge, not just on the surface, so large amounts of contaminant are trapped without a sudden rise in pressure caused by surface blinding. By varying the wind pattern, cartridges are fabricated to give a pre-determined micron rating. No Lead, • NSF/ANSI 42 (5-25 Micron only) Temperature Range: Up to 120°F (49°C), Filter Media: Polypropylene

UNIVERSAL PUMP MOUNTING BRACKET

Plumbeeze Universal Pump Mounting Bracket kit has the following components:

- (1) Zinc plated pump stand bracket
- (1) 3/8" - 16NC x 3/4" Zinc plated bolt
- (1) 3/8" - 16NC x 1" Zinc plated bolt
- (8) 3/8" Zinc plated flat washer
- (1) 1/2" - 13NC x 3/4" Long zinc plated hex bolt
- (1) 1/2" - 13NC x 1" Long zinc plated hex bolt
- (6) 1/2" Zinc plated flat washer
- (1) 5/8" - 11NC (external) x 3/8" - 16NC (internal) Insert
- (4) Blue plastic leg protectors

Note: To prevent damage to the tank it is very important to use the proper length bolts. A bolt which is too long may dent or puncture the tank dome. The length of bolt will vary on different tank styles. Always use slim washers where required.

RELIEF VALVES

Plumbeeze Relief Valves are recommended for all cold-water system installations to protect against damage to piping and pressure tanks. Field adjustments are not recommended for these relief valves. Any changes made to the pre-set pressure is entirely at the risk of the person(s) / company who make the adjustment. Relief valves must be installed so that they drain to a floor drain, sump or other safe location with an air break. If an outlet pipe is used, then it must be at least the same diameter as the relief valve outlet. No Lead

WATER TEST GAUGES

Plumbeeze Water Test Gauges designed to measure and register water system pressure within a system. Ideal for recording the highest pressure reached to determine if a pressure reducing valve (P.R.V.) is required as well as to troubleshoot problems caused by thermal expansion or pressure spikes. Maximum pressure indicator needle can be reset by turning external knob counterclockwise. The hose connection allows for direct connection to a water heater drain valve or hose bibb.

SMALL WATER PUMP PRESSURE SWITCHES, PUMPTROL

Small Water Pump Pressure Switches are designed for the control of electrically driven water pumps. Diaphragm actuated.

- FSG is the standard water pump switch, suitable for all types of pumps: jets, submersible, reciprocating, etc.
- FYG is designed to meet higher horsepower and pressure requirements.
- FRG is reverse acting: contacts open on falling pressure.

BRASS FOOT VALVES

Plumbeeze Foot Valves effectively maintain system pressure by preventing reverse flow. Plumbeeze foot valves connect at the end of the pipe to prevent back-flow of water and hold system pressure. Great for ponds, wells and anywhere else you use a pump, the Plumbeeze foot valve is also safe for potable water. No Lead

DROP PIPE COUPLINGS

Plumbeeze Drop Pipe Couplings are use to connect drop pipes together in well applications. No Lead

Part No.	Size	Length	UPC 777808+	Quantity		List Price - A
				L1	L2	

List Price Effective: July 02, 2021

304 Stainless Steel,

These couplings have an inside chamfer on both ends for trouble free starting of threads. They have a separate taper to ensure a proper watertight seal and flats on the sides for ease of use with a wrench.

Note: All tensile testing results consistently conclude in joint failure due to the elongation of the male threads on the drop/riser pipe. It is therefor recommended that the installer acquire the male pipe thread load capacity data of the drop/riser pipe from the pipe manufacturer. The loads must not exceed either the coupling or drop/riser pipe load capacity. The maximum load bearing weight of the pipe will vary significantly depending on the pipe material. This data is only a guide. The final responsibility for the design of the well lies with the well designer/installer.

FAST RECOVERY HEAT SHRINK KITS

Plumbeeze Fast Recovery Heat Shrink Kits are made of adhesive lined cross-linked polyolefin heat shrinkable tubing that is designed for applications up to 600 volts. The good abrasion resistance characteristics of this tubing provide excellent mechanical protection. When heated above 120°C (250°F) there is a 4:1 shrink ratio. Upon cooling the adhesive solidifies, forming a permanent, non-drying flexible and waterproof barrier. Black tubing is flame retardant, clear tubing is not flame retardant.

HEAVY DUTY HEAT SHRINK KITS

Plumbeeze Heavy Duty Heat Shrink Kits series are made of flexible cross-linked polyolefin heat shrinkable tubing. This tubing is suitable for applications up to 600 volts providing excellent waterproof insulating and environmental sealing protection for splices, connections, and jacket repairs. The high impact and abrasion resistance of this heavy wall tubing provides the highest level of mechanical durability. When heated above 120°C (250°F) there is a 3:1 shrink ratio.

BLUE & WHITE BRAIDED POLYPROPYLENE ROPE

Plumbeeze Blue & White Braided Polypropylene Rope is made of 100% monofilament fibers in a hollow braid. It floats on water, retains its strength when wet and may be stored wet without damage. There is a high resistance to abrasion, mildew, oil, grease, gasoline, marine growth, and other chemicals. It is best for tie-downs, utility hand lines, pulling lines, ladder lines, and marine uses.

FLOAT SWITCHES

Plumbeeze Float Switches feature an internal structure that contains precision molded parts with only two moving pieces. A steel ball moves through a solidly constructed housing to activate a switch arm that triggers a miniature snap action switch. The floats are supplied with jacketed cords, series (piggyback) plugs which eliminates the need for internal wiring in the pump motor. The units can also be supplied without plugs or in various lead lengths. Temperature Range: Up to 140°F (60°C),

LIQUID LEVEL ALARMS

Plumbeeze Liquid Level Alarms are a multipurpose alarm that can be used in a wide variety of applications such as: cisterns, residential sewage basins, septic tanks, sump basins, holding tanks, pump chambers, water tanks, and any others where detection of high or liquid level conditions is required. They use a low voltage switch circuit and have a battery (not included) backup for temporary protection during power outages. These alarms are for indoor use. Dual rated alarms for either indoor or outdoor use are available. Temperature Range: 0°F to 140°F (-18°C to 60°C)

WATER BOX

Plumbeeze Water Box instantly and economically solves waste water handling problems for laundry tubs, washing machines, wet bars, dehumidifiers or any other waste water storage and pumping applications. It accepts most submersible pumps and is constructed without seams for maximum durability. The bolt down cover allows for easy access for installation or removal of 1-1/4" or 1-1/2" sump pumps.

- 1-1/2" inlet connection is threaded
- 2" Vent Pipe can be installed if necessary

COMBINATION SWING/CHECK VALVES

Plumbeeze Combination Swing/Check Valves allow for wastewater pumping applications combining both an in-line shut off and back flow prevention. The combination check / ball valve results in a more compact installation than two separate valves. They are ideal for installation, especially where space is limited. The check valves feature an angled seat design, minimizing flow reversal and potentially damaging hydraulic shock (water hammer). Excellent choice for sump, sewage and grinder pump applications. Full port design allows for less friction and easier pumping. They are designed for vertical (solid free liquid applications) and horizontal (solid /semisolid applications) installation. If installing horizontally extra care must be taken to ensure the flow arrow points away from the pump and the check valve body is oriented as per the marking on the valve body HORIZONTAL USE THIS SIDE UP.

- Compatible with schedule 40 & 80 pipe. No Lead, 150 PSI @ 72°F, Primary Material: PVC,

List Price Effective: July 02, 2021

Super Iron Out Powder

- All purpose rust & stain remover
- Cleans toilets, sinks, tubs, white clothes
- Removes iron, rust and other contaminants from water conditioning equipment
- Removes iron deposits and foreign matter from the beads of resin
- Keeps mineral bed free from rust and foreign matter

25-02	5 Lbs.	6	288	\$ 26.73
25-08	28 oz.	6	696	\$ 10.43

Super Iron Out Liquid

- Quickly and easily removes the toughest rust stains from most surfaces
- Ready to use multi-purpose liquid comes in an easy to use trigger spray
- Great for cleaning bath, shower, toilets, colorfast fabrics, vertical surfaces and hard to reach places
- Non Abrasive, Non Hydrofluoric Acid based formula is safer than other Liquid Rust Stain Removers

25-IOL	470 ml.	6	612	\$ 7.65
--------	---------	---	-----	---------

Automatic Toilet Bowl Cleaner

- Repels rust & hard water stains with every flush
- Three (3) tablets per package (each tablet will last 30 days)
- Safe for plumbing and septic tanks

25-TB	2 Tablets	12	2160	\$ 7.65
-------	-----------	----	------	---------

Lime Out Bath & Kitchen Cleaner

- Tough cleaning action eliminating scrubbing
- Tough on lime, rust, soap, hard water deposits
- Flip Top bottle
- Biodegradable; contains no phosphates or abrasives
- Cleans toilets, tubs, sinks, dishwashers, showers and more
- Cleans & deodorizes chrome, stainless steel, tile and fibreglass
- Nearly twice the active ingredients of most competitive brands

25-LO24	24 oz.	6	648	\$ 7.10
---------	--------	---	-----	---------

White Brite

- Use with your regular detergent
- Safer on fabrics than bleach
- A unique laundry additive and booster designed to remove dinginess, yellowing, and rust stains caused by ageing and hard water
- Use regularly to keep your whites their brightest and to prevent discolouring or rust buildup in your washing machine
- Removes or lightens transferred dyes and colour runs caused when whites and colours are washed together

25-WB30	28 oz.	6	696	\$ 10.43
---------	--------	---	-----	----------

Home Dry Cleaner

- Ready to wear in 20 Minutes
- No Shrinking, No Stretching, No Fading
- Safe for your favourite fabrics including acetate, cashmere, cotton, linen, ramie, synthetics, wool etc.
- Removes odours, body oils and stains.
- One pack cleans up to 24 garments

25-WDCS	6 Cloths	4		\$ 21.18
---------	----------	---	--	----------

Dishwasher Magic

- Safely and effectively removes lime scale, iron, soap scum, grease and food stains that build up inside the dishwasher
- Recommended usage: once a month to ensure optimal cleaning and prevent build-up

25-DW	354 ml.	6	1800	\$ 8.97
